A Prime Resource for the Community
UCI's students, faculty and staff reach beyond the classroom and laboratories to address social issues and improve the human condition. UC Irvine's Measles Center, Orange County's only university hospital, recently opened a world-class facility. UC Irvine Medical Center, housing the latest technologies and strengthening UCI's ability to provide specialized medical and surgical treatments to the region's citizens. A major intellectual and cultural center, UCI engages the community through many public lectures and events. Renowned individuals speaking on campus include Nobel Peace Prize winner Hitomi Soga; the XIX Dalai Lama; Bhutan's prime minister and yoga circle founder for Richard Branson; and Academy Award winner United Nations Messenger of Peace Charlize Theron.

Fueling Growth and Prosperity
In 2010-11, extramural funding – money coming from outside sources, including federal and state agencies, industry contracts and private foundations – in support of UCI research – exceeded $331 million. Underlying strong community support, private giving to UCI reached $301 million in 2010-11. With an enrollment peak at 30,000 and beyond, UCI's future as a world-class research university, UCI benefits the community and the world in countless ways through its scholarly, scientific, creative and economic contributions. With an eye towards campus's 50th anniversary celebration in 2015, UCI now has embarked on a $1 billion fundraising campaign to support the campus's continued excellence in research, teaching and public service in the decades ahead.

Welcome to UC Irvine
Founded in 1965, the University of California, Irvine combines the strengths of a major research university with the beauty of an incomparable Southern California location. UCI pursues commitment to rigorous academics, cutting-edge research, and leadership and character development makes the campus a driving force for innovation and discovery that serves our local, national and global communities in many ways.

Excellence in Academics and Research
UCI fosters the passion, exploration and creation of knowledge through quality education. Graduates are equipped with the tools of analysis, expression and cultural understanding necessary for leadership in today's world.

Consistently ranked among the nation's best universities – public and private – UCI excels in a broad range of fields, garnering national recognition for every school, departments and programs. These UCI researchers have won Nobel Prizes – two in chemistry and one in physics. The university is credited for its top-rated research and graduate programs, extensive commitment to undergraduate education, and growing number of professional schools and programs of academic and social significance. Recent additions include public health, pharmacological sciences, and nursing science programs, as well as a new law school that graduates its first class in 2015.

With 26,000 undergraduate and graduate students, 1,100 faculty, and a 2,000-student, UCI is among the most dynamic campuses in the University of California system, increasing by a diverse range for students; UCI ranks among the top 10 U.S. universities in the number of undergraduates applications and continues to admit freshmen with highly competitive academic profiles. Orange County's second-largest employer, UCI generates an annual economic impact of the county by $4 billion.

Welcome to UC Irvine

Excellence in Academics and Research

UC Irvine fosters the passionate exploration and creation of knowledge through quality education. Graduates are equipped with the tools of analysis, expression and critical thinking necessary for leadership in today's world.

Consistently ranked among the nation's best universities – public and private – UC Irvine excels in a broad range of fields, garnering national recognition for many schools, programs and individuals. Speaking on campus include Nobel Prize winners, national leaders and Academy Award winners. Renowned researchers have won Nobel Prizes – two in chemistry and one in physiology.

UC Irvine is ranked 27th in the world and 14th among public universities by QS, one of the most respected international organizations. That ranking is a testament to the depth and breadth of UC Irvine research – exceeded $331 million.

A Prime Resource for the Community

UC Irvine's faculty, students and staff work beyond the classroom and laboratory to address social issues and improve the human condition. UC Irvine Medical Center, Orange County's only university hospital, recently opened a world-class facility, UC Irvine Medical Hospital, housing the latest technologies and strengthening UC Irvine's ability to provide specialized medical and surgical treatments to the region's patients.

A major intellectual and cultural center, UC Irvine engages the community through many public lectures and events. Renowned individuals speaking on campus include Nobel Peace Prize winner, the Honorable the XIV Dalai Lama; British industrialist and Academy Award-winner and United Nations Messenger of Peace Charles Theron.

Fueling Growth and Prosperity

In 2001-02, extramural funding – money coming from outside sources, including federal and state agencies, industry contracts and private foundations – in support of UC Irvine research – exceeded $370 million. Underscoring strong community support, private giving to UCI reached $165 million in 2010-11. With an enrollment-peak of 30,000 students, UC Irvine is the largest employer, UCI generates an annual economic impact on the county of $4 billion.
